

2017 - PUBLIC RETIREMENT SYSTEMS COMMITTEE - WRITTEN COMMENTS

To the committee members,

As a retired teacher receiving IPERS benefits, I am concerned about the State of Iowa making changes to what I believe to be the best retirement program around. I am honored to have taught in our great state for 34 years. I am asking all of you to fight for any changes to the current system. It gives me great peace of mind knowing I can be confident that this program I have paid into for so many years will continue to be there for me and all the public employees who have contributed as well. Thank you for the work you have done and continue to do to keep IPERS the great program it has been and needs to continue to be.

Respectfully,
Nancy Krohn
